Pursuing B.Sc in Computer Science at BITS and undergoing specialized training in full-stack development at NxtWave. Skilled in Python, SQL, and core web technologies (HTML, CSS, JavaScript) with solid understanding of DSA in C++. Passionate about building scalable, user-focused applications and continuously improving technical expertise. Strong in problem-solving, collaboration, and adaptability to deliver high-quality solutions.

SKILLS

HTML, CSS, JavaScript

Python, DSA in C++

SQL

AWS (EC2, S3, IAM, VPC, CloudWatch, Lambda, Route 53), Docker, Git & Github Actions, Linux

EDUCATION

NxtWave Institute of Advanced Technologies (NIAT)　　　🗓 Aug 2024 - Jul 2028

Specialized Training in Full Stack Development with Python, SQL & DSA in C++

BITS Pilani　　　🗓 Aug 2024 - Jul 2027

B.Sc in Computer Science

PROJECTS

CryptoVerse React Application Deployment

Tech: React | AWS EC2 | Nginx

Deployed a **React.js application** (CryptoVerse) on AWS EC2 using **Nginx** as a reverse proxy. Configured build optimization and fallback routing for SPA functionality, HTTPS via Let's Encrypt, and ensured smooth deployment with scalable server setup.
